IMPORTANT INFORMATION

PLEASE READ THE ENTIRETY OF THE “Legal Considerations, Risks and Disclaimer” SCHEDULE CAREFULLY. WE RECOMMEND YOU CONSULT A LEGAL, FINANCIAL, TAX OR OTHER PROFESSIONAL ADVISOR(S) OR EXPERT(S) FOR FURTHER GUIDANCE PRIOR TO PARTICIPATING IN THE FTN TOKEN SALE OUTLINED IN THIS WHITEPAPER.

THIS WHITEPAPER DOES NOT CONSTITUTE A PROSPECTUS OR OFFER DOCUMENT OF ANY SORT AND IS NOT INTENDED TO CONSTITUTE AN OFFER OF SECURITIES OR A SOLICITATION FOR INVESTMENT IN SECURITIES IN ANY JURISDICTION.

NO PERSON IS BOUND TO ENTER INTO ANY CONTRACT OR BINDING LEGAL COMMITMENT AND NO CRYPTOCURRENCY OR OTHER FORM OF PAYMENT IS TO BE ACCEPTED ON THE BASIS OF ALL OR ANY PART OF THE AVAILABLE INFORMATION.

ANY AGREEMENT IN RELATION TO ANY PURCHASE OF THE TOKENS IS TO BE GOVERNED BY THE TERMS AND CONDITIONS OF A SEPARATE AGREEMENT AND NO OTHER DOCUMENT. IN THE EVENT OF ANY INCONSISTENCIES BETWEEN THE TERMS AND CONDITIONS OF THAT AGREEMENT AND THE AVAILABLE INFORMATION, THOSE TERMS AND CONDITIONS SHALL PREVAIL.

You must read the “Legal Considerations, Risks and Disclaimer” schedule appended to this White Paper before: (i) making use of this White Paper and any and all information available on the website(s) of FASTTOKENASIA a company incorporated in Singapore (the “Company”) at www.fasttokenasia.com (the “Website”); and/or (ii) participating in the Token Issuer’s sale of FTNA tokens (the “Tokens”) outlined in this White Paper (the “Token Sale”).

The “Legal Considerations, Risks and Disclaimer” schedule applies to this White Paper and any and all information available on the Website. The contents of the “Legal Considerations, Risks and Disclaimer” schedule outlines the terms and conditions applicable to you in connection with (i) your use of this White Paper and of any and all information available on the Website; and/or (ii) your participation in the Token Sale, in each case in addition to any other terms and conditions that we may publish from time to time relating to this White Paper, the Website and the Token Sale (such terms hereinafter referred to as the “Terms”).

The “Legal Considerations, Risks and Disclaimer” schedule may be updated from time to time and will be published as part of the latest version of the White Paper which shall be available on the Website. You shall be obliged to check the latest available version of the White Paper prior to participating in the Token Sale.

The information set forth in the “Legal Considerations, Risks and Disclaimer” schedule may not be exhaustive and does not imply any elements of a contractual relationship. While we make every reasonable effort to ensure that all information: (i) in this White Paper; and (ii) available on the Website (collectively referred to as the “Available Information”) is accurate and up to date The Available Information shall in no way constitutes professional advice. The Token Issuer neither guarantees nor accepts responsibility for the accuracy, reliability, current state (as of this White Paper) or completeness of the Available Information.

Individuals intending to participate in the Token Sale should seek independent professional advice prior to acting on any of the Available Information. Residents, citizens, nationals, and/or green card holders of each of the United States of America, the People’s Republic of China, Malaysia or any other jurisdiction which prohibits the possession, dissemination or communication of the Available Information and/or prohibits participation in the Token Sale or the purchase of the Tokens or any such similar activity (a “Restricted Jurisdiction”) or any other Restricted Persons are not permitted to participate in the Token Sale.

The term “Restricted Persons” refers to any firm, company, trust, corporation, entity, government, state or agency of a state or any other incorporated or unincorporated body or association, association or partnership (whether or not having separate legal personality) that is established and/or lawfully existing under the laws of a Restricted Jurisdiction.

The Token Issuer reserves the right to take any and all necessary steps to be in compliance with any regulatory requirements, including but not limited to, interrupting, suspending or ceasing the issuing or trading of FTNA Tokens and any related operations thereto, if deemed necessary, at the Token Issuer’s sole discretion.

It is solely up to you to ensure that no prior or subsequent approval, notification, registration or license is needed to acquire or hold FTNA Tokens, or if such is needed, it is solely up to you to obtain such prior or subsequent approval, notification, registration or license or require any form of authorization in the country where you are a citizen, national, resident or having a similar connecting factor, or incorporated, registered or effectively managed, and the Issuer shall not in any way be liable for any non-conformity of the above by you.

Changes in laws, regulations and directives governing the Token Issuer’s operations may adversely affect their business and consequently the FasttokenAsia Platform.

Any change in the Token Issuer’s tax status, or in taxation legislation in Singapore or any other relevant jurisdiction, could affect the value of its financial holdings, its business and the Issuer’s ability to achieve its business objective and continual commitment to the development of the FasttokenAsia Platform.

This Whitepaper, FTNA Tokens and/or the holding, use and trading of FTNA Tokens carries no rights, whether express or implied. FTNA Tokens do not represent nor confer any ownership rights or stake, share or security or equivalent rights, intellectual property rights or any other form of participation relating to the Issuer. FTNA Tokens do not give you any entitlement to acquire any such interest or entitlement in respect of the Token Issuer.

Disclaimer

The FTNA token does not possess any of the necessary characteristics or right analogous to financial instruments, such as transferable securities, money market instruments, units in collective investment schemes, or derivative instruments, nor does it possess any of the characteristics associated with electronic money, commodities or any other form of investment instruments.

The issue of FTNA tokens shall be carried out from Singapore in accordance with corresponding rules and regulations. This Whitepaper is neither a prospectus nor a solicitation for the investment of financial instruments to the public in any jurisdiction under any investment laws. Under no circumstances does this Whitepaper constitute an offer, or solicitation to the public or private placement in any jurisdiction in which such an offer, solicitation, or sale would be unlawful.

The Token Issuer reserves the right, at its sole discretion to change, modify, add, or remove portions of this Whitepaper and the terms contained therein at any time prior to, during, or after the FTNA token issuance to ensure compliance with the applicable regulatory requirements.

We reserve the right to take any and all necessary steps to be in compliance with any regulatory requirements, including but not limited to, interrupting, suspending, or ceasing the issuing or trading of FTNA tokens and any related operations thereto, if deemed necessary, at our sole discretion.

It is solely up to you to ensure that no prior or subsequent approval, notification, registration, or license is needed to acquire or hold FTNA tokens, or if such is needed, it is solely up to you to obtain such prior or subsequent approval, notification, registration, or license, or require any form of authorization in the country where you are a citizen or resident.

This Whitepaper, FTNA tokens, and/or the holding, use, and trading of FTNA tokens carry no rights, whether express or implied, other than for their use in the Fasttoken ecosystem and product line. FTNA tokens do not represent nor confer any ownership rights, stake, share, security, equivalent rights, intellectual property rights, or any other form of participation. FTNA tokens do not give you any entitlement to acquire any such interest or entitlement.

FTNA tokens are not being offered or distributed to (a) any U.S. Person; (b) or any citizen or resident or legal entity of (i) the United States of America, the People's Republic of China, Afghanistan, Belarus, British Virgin Islands, Central African Republic, Congo, Democratic Republic of the Congo, Republic of the Cote D'Ivoire, Crimea region of Ukraine, Cuba, El Salvador, Eswatini, Gambia, Iran, Iraq, Liberia, Libya, Malawi, Mali, Moldova, Myanmar, Niger, North Korea, Palestinian Territory, South Sudan, Sudan, Syria, Venezuela, Yemen, Zambia, Zimbabwe; (ii) any state, country or other jurisdiction that is sanctioned and/or embargoed by the United States of America, the European Union and/or Switzerland; (iii) a jurisdiction where it would be illegal according to local law or regulation for you to purchase Tokens; or (iv) where the sale of Tokens is prohibited or contrary to local law or regulation, or could subject Fasttoken to any local registration, regulatory or licensing requirements.

Executive Summary

FasttokenAsia is the native currency of the FTNA end-to-end web3-oriented ecosystem, which incorporates multiple solutions including the FTNA token, FTNA exchange platform, FTNA Pay cryptocurrency payment ecosystem, Abet NFT marketplace, and various decentralized applications for our partners.

A unique feature of the ecosystem is the unified wallet/account for every user. The unified account allows us to register every user, and carry out the corresponding KYC/AML policies as required, after which users will be able to access all our products and services with ease. This helps eliminate the need for multiple registrations and KYC/AML procedures for each product while also enhancing the security of all services.

FTNA Token

FTNA is the alternative currency of FTN(Fasttoken) to be used in Asia Region, a public EVM-based layer 1 solution with a novelty consensus called Proof of Stake and Activity (PoSA). Initially, FTNA was emitted as an ERC-20 token that serves as a utility token for the whole ABet - a leading IT solutions provider - ecosystem, enabling users to settle all kinds of business and personal arrangements between themselves and any of ABet's products and services.

FTNA Web3 Gaming Hub

The web3 gaming hub represents a platform that allows users to combine and centralize all their gaming interactions, and assets, in the world of web3, while being able to play numerous web3 games at the same time. The term centralization, in this context, refers to quality-of-life features that allow users to bring together all their crypto assets and either view or access them from a single point. The platform will carry light integrations with exchanges and NFT marketplaces, allowing to quickly swap cryptocurrencies and buy/sell NFTs, without any complex functionality or the need to leave the platform. The gaming hub will feature both in-house and third-party web3 games, essentially serving as the "Steam" for web3.

Business Model Components

1. Key Partners

ABet - a leading IT giant, Abet has fully integrated FTNA into its ecosystem, thus providing FTNA with enormous exposure among millions of users spread across multiple industries including IT, AR, VR, Finance, and E-commerce.

2. Value Proposition

The Fasttoken ecosystem allows everyday users to reap the benefits of blockchain technologies and cryptocurrencies by taking active participation in this newly-emerging industry and utilizing those in their everyday lives and activities. With the help of FTNA and underlying infrastructure, end-users will be able to buy, sell, and trade cryptocurrencies, use those as a means of payment in various stores, purchase and sell NFTs, and make calculated investments for the future.

3. Customer Relationships

We will be building long-term, quality-first customer relationships with our clients, making

sure that they not only become avid supporters of the Fasttoken ecosystem and its products but also learn about the world of blockchain technologies and cryptocurrencies.

4. Customer Segment

Our target customers are young to middle-aged tech enthusiasts, who want to become early adopters of new technologies and would like to use it for their day-to-day activities. Then, there are everyday people who have heard about blockchain technologies and cryptocurrencies and want to learn about those and invest in them.

5. Key Resources

The key resources include the vast domain knowledge and experience that FasttokenAsia, and ABet bring to the table, as well as the ability to educate our audience in the ways of blockchain technologies and cryptocurrencies, which will help them stay safe and on the winning side of things, even outside of our ecosystem. We are currently expanding our Dubai-based and Yerevan-based offices and hiring staff that will help cover the above-mentioned points.

6. Communication and Distribution Channels

To the extent allowed by appropriate regulations, FasttokenAsia will leverage various marketing channels including social media, online and offline advertising, and community marketing, which will help create a strong presence in the market, educate the audience about our products and services and make sure that their investments are secure. We will also be taking measures to ensure that all our users are safe from fraud and counterfeit risks by always providing the required information to identify each service as legitimate.

7. Cost Structure

The key cost centers would be:

- Strong Marketing investments for token awareness (and other products) in order to become a thought leader among the cryptocurrencies in the market.
- Human Capital with mainly IT-related specialists including customer support, security, cyber security, AML and KYC, compliance, front end, and back-end development, blockchain stability, localization specialists, etc.

8. Revenue Stream

In the ABet ecosystem, there are multiple revenue streams:

1. The token sale of FTNA

The token sale of FTNA will begin on May 20, 2025, in order to raise up to \$15 million across private and public sale tranches. The proceeds are being actively invested into the

ecosystem in various ways and formats, all aimed to accelerate the delivery of all products and services, as well as educating our audience in the ways of blockchain technologies and cryptocurrencies.

2. Fastex Web3 Gaming Hub

The gaming hub will feature multiple revenue streams such as subscription to content, earning a percentage on withdrawals (unless these are done with FTNA), promotional “featured” games category listing, onboarding new third-party game developers, etc.

FasttokenAsia, ABet, and Partner Network

Limited in Asian region, FasttokenAsia is fully supported by ABet, a leading software solutions provider in the worlds of IT, sports, finances, blockchain technologies, supply chain management, e-commerce solutions, and content provision. Headquartered in Singapore, Abet has over 10 years of experience, a network of more than 120 partners, and over a million monthly active users across the globe.

FasttokenAsia Products and Solutions

Decentralized and Cryptocurrency-friendly Solutions

FasttokenAsia is going to introduce a number of decentralized, as well as cryptocurrency-oriented applications that will change the way we approach business, even for some of the most conventional industries. Our decentralized applications involve blockchain-based games, sports industry-related solutions, supply chain management apps, financial products, and cryptocurrency-first e-commerce stores and integrations.

Blockchain-based Games

We enable decentralized and transparent environments across all verticals related to blockchain-based games. All operations are powered by the Fast Channel technology (described below) solution and guarantee an outstanding user experience.

Blockchain-Based Feed Provider Oracle

As ABet already provides real-time data and digital content for the most popular sporting events around the world, we introduce the system into the blockchain world via a feed provider oracle for the Ethereum network, from where third-party service providers will

be able to take the event outcomes in Asia.

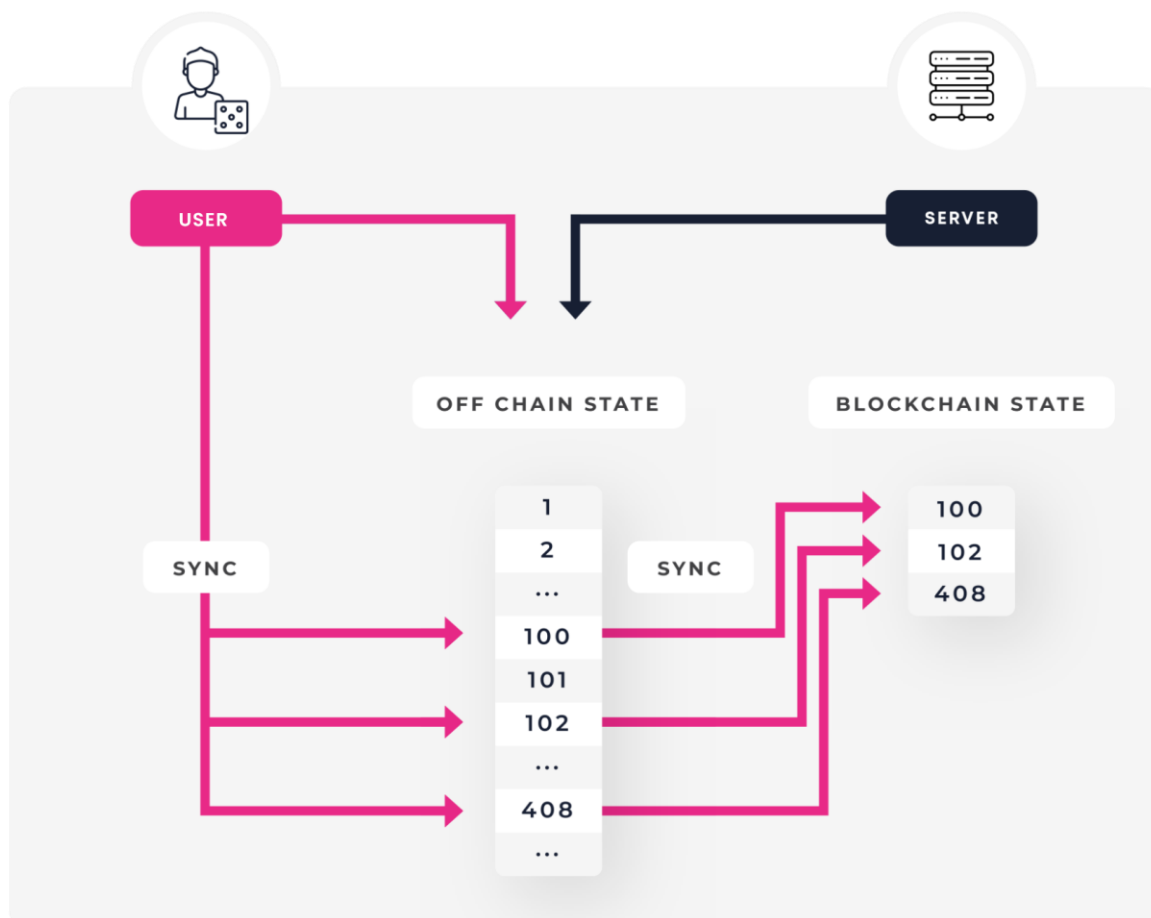

All third-party entities will be able to subscribe to any new feed, which is the event outcome, through new or existing feed subscriptions with the help of smart contracts. Once an event result is publicized, it lands on a smart contract and becomes available for everyone.

The fees feed acquisition will be paid in FTNA, thus improving the token economy substantially, and increasing its popularity and value, correspondingly. The feed's trustworthiness will be guaranteed by Abet's renowned reputation in Asia.

Cryptocurrency-friendly E-commerce Solutions

FasttokenAsia is going to be the default cryptocurrency and payment method of all our e-commerce and merchandise stores. Along with fiat, FTNA will be used to cover all user needs regarding general product consumption, as well as tracing packages through the Ethereum network, all the way to delivery.

Because most of those products rely on speed, scalability, and effectiveness to provide the user experience required by modern standards, we have implemented a unique microtransaction solution that will help power these apps and infuse them with all the benefits of blockchain technologies without compromising any aspect of security or user experience.

This allows us to cut costs significantly, since once the processes are moved off-chain, all the data transfer that happens between the DApp and the user is independent of the blockchain and is completely free of charge, yet at the same time, it remains 100% verifiable and cheat-proof. Also, users can freely enjoy as many simultaneous games as they like, without any latency, lag, or other limitations that would result in a poor experience.

Channels have 2 components:

Channel Contract - This holds the latest channel state with all the information that needs to be secure and immutable - account balance, prizes, random numbers, etc.

Off-chain Channel - This component has the data of the current state stored locally on the device of each participant and is fully verifiable by the smart contract as if it was a native transaction on the blockchain. This is achieved with the help of the [Elliptic Curve Digital Signature algorithm](#) used during the signing process of the off-chain messages.

DApp Issues

One of the main issues that blockchain and cryptocurrency games haven't become widely adopted yet, is the fact that most popular blockchains like Ethereum, and even most of the successful Ethereum forks like Polygon and BSC, cannot handle numerous microtransactions in a way that will not affect the user experience. On most of these networks, if a high number of users were to play a game at the same time, they would have to wait for a few minutes between multiple actions before the blockchain processed those.

A related issue, scalability, naturally arises when taking into account latency and suboptimal network speed. If a couple of users cannot comfortably play a game simultaneously, imagine what would happen if more and more users joined in. Minutes would turn into hours and days, eventually leading to a full halt of the platform.

The cost is another issue. Since each action on the blockchain is essentially a transaction, users would have to pay gas fees, which are linked to the price of Ether and network load. As we have seen multiple times throughout 2020 and 2021, the gas fees can be exquisitely unpredictable, rising as high as \$400 per single transaction on the Ethereum blockchain, rendering close to any business initiatives - let alone games - on the blockchain invalid for business needs.

Then there is the issue of reliability. Even if the number of users who can start a game on the blockchain simultaneously could be fixed - albeit it is a rather poor solution business-wise - one simply cannot control all the other apps and platforms that run on the blockchain.

These apps may potentially overload the network and ruin the gaming experience for users, again up to a point of completely halting all transactions like in the case of Cryptokitties - the famous DApp that clogged the Ethereum network for multiple days in the past. Fast

Channels are designed to streamline decentralized apps where microtransactions are essential, yet can be completed without damaging the user experience.

RNG System

We have implemented a blockchain-based RNG system that will be utilized by DApps that carry a certain element of randomness to induce the fun aspect for users. The RNG system utilizes the Mersenne Twister PRNG algorithm. Its RNG is generated live and is designed to be totally unpredictable. It is equally dependent on participants and the DApp, yet neither can predict nor manipulate the outcome. The process takes place based on random numbers produced by the participants' devices - mobile/tablet/desktop for the users and the server for the DApp - utilizing a Pseudo-Random Number Generator (PRNG) algorithm.

Later, the random numbers are exchanged between the two parties inside the Fast Channel and as a result, a new random number is formed. However, this doesn't happen directly. Each party hashes their number and later on has to reveal it, without a chance to change the number at any point.

We utilize Keccak-256 Ethereum smart contract-compatible hashing algorithm to maximize security and reduce the chance of cheating risk and manipulation to zero. This is possible thanks to the mathematical integrity of the algorithm, and more importantly, due to the correct order of steps developed by our team.

Fastex Web3 Gaming Hub

The web3 gaming hub represents a platform that allows users to combine and centralize all their gaming interactions, and assets, in the world of web3, while being able to play numerous web3 games at the same time.

The term centralization, in this context, refers to quality-of-life features that allow users to bring together all their crypto assets and either view or access them from a single point. The platform will carry light integrations with NFT marketplace, allowing to quickly swap cryptocurrencies and buy/sell NFTs, without any complex functionality or the need to leave the platform. The gaming hub will feature both in-house and third-party web3 games, essentially serving as the "Steam" for web3.

The Token (FTNA)

Token Issuance (Completed)

The FTNA Token is based on Ethereum's ERC-20 standard. A total number of one billion (1,000,000,000) FTNA Tokens is issued. No further token issuance will be possible other than that envisaged in the TGE.

The issued FTNA tokens will be held and distributed according to the rules written in the distribution smart contract, which has passed two separate security audits with their corresponding reports available on fasttokenasia.com. FTNA will become publicly tradable on July, 2025.

ABet Crypto Reward Program (ACRP)

The ACRP is a business initiative, which aims to promote healthy and mutually beneficial business relations through increasing cryptocurrency adoption in the ABet network. Upon the FTNA token becoming available, all the parties within Abet's network that have any kind of business relationships with ABet - including users, affiliates, and partners - will be eligible to "mint" FTNA tokens in exchange for their participation, hard work, and/or service to ABet. "Minting" in this context, refers to the process of re-acquiring FTNA tokens based on specific actions outlined in the ACRP in the future, mainly in the form of FTNA reimbursement.

ABet preserves the right to limit the total percentage of FTNA reimbursement per party. The ACRP encourages all involved parties to hold their FTNA rewards to become eligible for multiple benefits, depending on their operations field.

A distinct amount of the FTNA supply will be dedicated to ACRP to encourage FTNA acquisition and holding among users, affiliates, and partners via various means and incentives. The details of the ACRP are described below:

Affiliates - An X percentage of every affiliate program's profit will be reimbursed to the affiliate in the form of FTNA. If an affiliate holds a Y amount of FTNA on their wallet, they become eligible for unique benefits - higher profit margins, better commission plan, etc. The details regarding the exact FTNA holding amounts and applicable benefits will be shared at a later stage via the official website and whitepaper updates.

Partners - An X percentage of every partner's profit will be reimbursed to the partner in the form of FTNA. If a partner holds a Y amount of FTNA on their wallet, they become eligible for unique benefits - better revenue-sharing business model, higher profit margins, etc. The

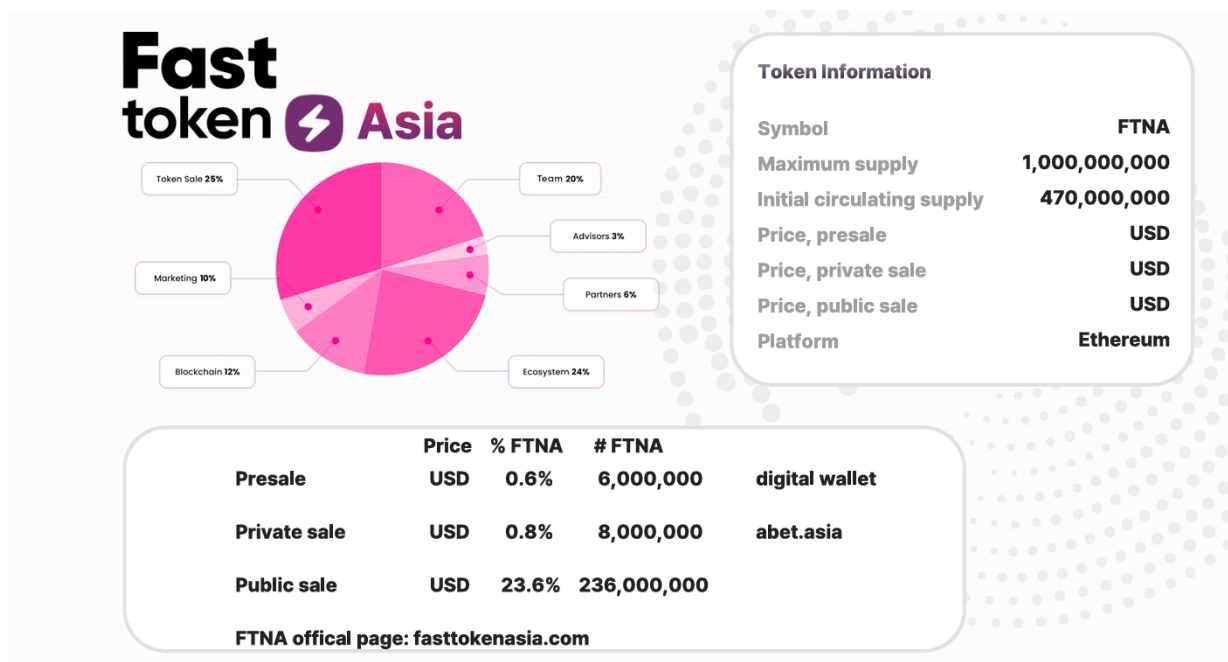

details regarding the exact FTNA holding amounts and applicable benefits will be shared at a later stage via the official website and whitepaper updates.

Users - An X percentage of every user's profit will be reimbursed to the user in the form of FTNA. If a user holds a Y amount of FTNA on their wallet, they become eligible for unique benefits - larger bonuses, tournament participation chances, etc. The details regarding the exact FTN holding amounts and applicable benefits will be shared at a later stage via the official website and whitepaper updates.

Game Providers - If the game provider integrates FTNA as a native currency, an X percentage of the monthly profit will be reimbursed to the game provider in addition to the monthly profit. If game providers hold a Y amount of FTNA on their wallet, they become eligible for unique benefits - game promotions, inclusion into ABet jackpot, homepage advertisements, etc. The details regarding the exact FTNA holding amounts and applicable benefits will be shared later stage via the official website and whitepaper updates.

Token Distribution

The distribution of FTNA tokens will be done according to the diagram below:

Founders: 20% of the total supply will remain with the Fasttoken team and founders* for future distributions, and to attract strategic partners. The full amount of these tokens will be locked for a 24-month period and unlock according to the pattern described in the smart contract - 10%/monthly.

Advisors: 3% of the total supply will be issued to the advisory board as a reward for their contribution to the project. The full amount of these tokens will be locked for a

12-month period and will unlock according to the pattern described in the smart contract - 10%/monthly.

Partners: 6% of the total supply will be issued to a number of chosen partners based on their market share, contribution to the SoftConstruct network, and longevity of the partnership as a reward for maintaining healthy business relationships, released immediately.

Ecosystem: 24% of the total supply will be dedicated to covering various operations and operational costs such as providing liquidity for cryptocurrency exchanges, managing both online and offline payment systems, crypto terminals, etc., released immediately.

Blockchain: 12% of the total supply will be reserved to cover the needs for the initialization and support of the blockchain, as well as providing an easy access to native currency without the need to swap the ERC-20 FTNA to the new format.

Marketing and PR: 10% of the total supply will be held to cover marketing and PR expenses, released immediately.

Presale: 0.6% of the total supply will be offered to the workforce and partner network of ABet, with a vesting period of 9 months. The Presale will be done via the Fasttokenasia homepage.

Private Sale: 0.8% of the total supply will be offered to institutional investors and veteran blockchain industry participants, with a lockup period of 12 months. After that, the tokens will unlock according to the pattern described in the smart contract - 10%/monthly.

Public Sale: 23.6% of the total supply will be offered to the public, and released immediately. The public sale is planned to take place via the Abet.asia as an Initial Exchange Offering.

NOTE: "founders" refers to the FasttokenAsia company.

Token Sale Details

The FTNA token sale will consist of 3 phases - presale, private sale, and public sale. The initial exchange rate of FTNA is 1 FTNA = 0.5 USD. The initial, lowest price will be offered to the workforce and close relatives of the ABet network. Overall, this token sale pursues five important goals, similar to traditional business models:

1. Natural token distribution. FTNA investors will be representing different layers of different societies with different interests, which leads to better token decentralization.
2. A solid, factual market analysis. The token sale is a profound way to analyze the

market. Understanding the popularity of the project from the beginning, identifying the buyer personas and their intentions will help us dramatically improve the marketing strategy and increase the effectiveness of spending resources in the future.

3. Boost the development processes. The funds raised during the token sale will directly contribute to the speed of all deliverables described in the products and services section.
4. Incentivize Abet's partner network - The token sale will serve as one of the main means to incentivize Abet's partner network to invest in FTNA, which will later benefit the token liquidity immensely.
5. Share the risks and gains. As a profound way of sharing success, we want our investors to be attracted by the potential of the FasttokenAsia project and ultimately benefit together.

During the token sale, 30% of the total token supply will be sold. All the resources acquired in the process of the token sale will be directed towards improving the delivery rate of products, boosting marketing, PR, and worldwide brand recognition, and the expansion of the FasttokenAsia team, which will further enhance the development and delivery rates of our solutions.

During the FTNA Token Sale, we will be accepting all fiat and major cryptocurrencies. Since the token is ERC-20, any supporting wallet will work here, we do not provide a separate wallet. The public sale is planned to be carried out via an IEO, according to the payment and wallet rules of the Exchange, which will be taking care of the whole process.

Presale

The Presale will commence on the Initiation Date and will continue for a maximum of 30 days. During this period, FTNA tokens will be offered to the workforce of ABet, allowing them to get onboard at the lowest possible price.

The full amount of FTNA Tokens sold during the Presale will be locked up for 150 days. The whole procedure will be governed by the FTNA wallet or ABET, in a centralized manner. The purpose of the lockup period is to ensure the healthy price of FTNA Token and safeguard against large selling volumes following the token launch, as well as in an attempt to prevent volatility spikes.

The planned amount of FTNA Tokens sold during the Presale is 0.6% of the total supply. The funds raised during the Presale will be invested into the project, with the aim of expanding the FasttokenAsia team by incorporating more top-tier professionals for the development and timely delivery of the products and services in accordance with the roadmap.

Start Date: May 20, 2025

Duration (days): up to 30 days

Private Sale

The full amount of FTNA Tokens sold during the Presale will be locked up for 365 days. Following the lockup period, 10% of the purchased tokens will be unlocked each month.

The whole procedure will be governed by the FTNA Wallet or ABet, without any interference from the FasttokenAsia Team. The purpose of the vesting period is to ensure the healthy price of FTNA Token and safeguard against large selling volumes following the token launch, as well as in an attempt to prevent volatility spikes.

Start Date: July, 2025

Duration (days): up to 38 days

Public Sale

The public sale will commence on August, 2025 and will continue for a maximum of 3 days. The public sale is to be executed on the basis of an IEO via the FTNA wallet. The tokens purchased during the public sale are released immediately. The maximum amount of FTNA Tokens sold during the Initial Coin Offering will not exceed 2% of the total supply.

Start Date: August 2025

Duration (days): 3 days

Roadmap

- 2024 Q1
 - FTNA whitelisting for ABet Employees
 - FasttokenAsia NFT collection launch on Polygon network
- 2024 Q2
 - ABet payments ecosystem development
 - Blockchain-based games platform launch with v3 ABet Channels
- 2024 Q3
 - FTNA Swap development
 - ABet integration FTNA
 - NFT opening
- 2024 Q4
 - ABet test network launch
- 2025 Q1
 - FTNA private sale
- 2025 Q2
 - FTNA Go public on Exchange
 - FTNA public sale
 - Blockchain-based feed provider oracle research and development
 - Decentralized sports platform research and development
 - DApp integrations
 - Decentralized sports platform launch

Legal Considerations, Risk, and Disclaimer

1. Legal Considerations

FasttokenAsia has approached the Token Sale in a responsible and sensible manner. Given the uncertain and largely unregulated status of distributed ledger technologies, businesses and activities as well as cryptocurrencies and cryptocurrency-related businesses and activities, FasttokenAsia has spent a significant amount of time and resources to consider its business approach and where it proposes to operate now and in the future.

FasttokenAsia will look to comply with all laws and regulations that it is subject to. However, due to the current uncertain state of regulation across the world, FasttokenAsia cannot guarantee the legality of FasttokenAsia's business, the Token and/or its ability to develop, structure and license any future Token functionality in every jurisdiction but FasttokenAsia will strive to be responsive and compliant in the face of any regulatory inquiry. The Tokens are intended to serve as functional utility tokens designed for FasttokenAsia's business.

The Tokens are not viewed by us as securities. In the event that you purchase the Tokens, your purchase cannot be refunded or exchanged, unless otherwise stated in the White Paper. FasttokenAsia does not recommend purchasing or holding the Tokens for speculative investment purposes. The Tokens do not entitle you to any equity, corporate governance, dividends, voting or similar right or entitlement in FasttokenAsia or in any of its affiliated companies.

The Tokens are issued as utility tokens with functionality to facilitate the implementation of its business proposal. FasttokenAsia does not recommend that you purchase the Tokens unless you have prior experience with cryptographic tokens, blockchain-based software and distributed ledger technology and unless you have taken independent professional advice.

2. Regional Restrictions

Residents, citizens, nationals, and/or green card holders of each of the United States of America, the People's Republic of China, Federal Republic of Germany, Afghanistan, Belarus, British Virgin Islands, Central African Republic, Congo, Democratic Republic of the Congo, Republic of the Cote D'Ivoire, Crimea region of Ukraine, Cuba, El Salvador, Eswatini, Gambia, Iran, Iraq, Liberia, Libya, Malawi, Mali, Moldova, Myanmar, Niger, North Korea, Palestinian Territory, South Sudan, Sudan, Syria, Venezuela, Yemen, Zambia, Zimbabwe, or any other jurisdiction which prohibits the possession, dissemination or communication of the Available Information and/or prohibits participation in the Token Sale or the purchase of the

Tokens or any such similar activity (a “Restricted Jurisdiction”) or any other Restricted Persons are not permitted to participate in the Token Sale. The term “Restricted Persons” refers to any firm, company, trust, corporation, entity, government, state or agency of a state or any other incorporated or unincorporated body or association, association or partnership (whether or not having separate legal personality) that is established and/or lawfully existing under the laws of a Restricted Jurisdiction.

3. No Advice

No part of the available Information should be considered to be business, legal, financial or tax advice regarding FasttokenAsia, the Tokens, the Token Sale or any of the matters to which all or any part of the Available Information relates. You should consult your own legal, financial, tax or other professional advisor regarding the Available Information. You should be aware that you may be required to bear the financial risk of any purchase of the Tokens for an indefinite period of time.

4. Limitation of Liability

In no event shall Fasttoken or ABet, or any current or former affiliated company, current or former employees, officers, directors, partners, trustees, representative, agents, advisors, contractors, or volunteers of FasttokenAsia (hereinafter the “Company Representatives”) be liable for:

(I) Any indirect, special, incidental, consequential or other losses of any kind, in tort, contract or otherwise (including but not limited to loss of revenue, income or profits, or loss of savings, or loss of use or data, or loss of reputation, or loss of any economic or other opportunity of whatsoever nature or howsoever arising), arising out of your use or inability to use the services on the Website or products or Tokens offered by FasttokenAsia or the breach of any of these Terms by you or by any third party;

(II) Any security risk such as hacker attacks, loss of password, loss of private key, or similar incidences;

(III) Mistakes or errors in code, text, or images involved in the Token Sale or in any of the Available Information or any information contained in the Available Information or any expectation promise representation or warranty arising (or purportedly arising) therefrom;

(IV) Any losses resulting from the volatility in pricing of the Tokens in any countries and on any exchange or market (regulated, unregulated, primary, secondary or otherwise);

(V) Any losses or damages arising out of or in connection with the purchase, use, sale or otherwise of the Tokens, or arising out of or in any way connected to your failure to properly

secure any private key to a wallet containing the Tokens, (collectively, the “Excluded Liability Matters”). The Available Information (including the Website and the White Paper) and the Tokens are provided on an “as is” basis and without any warranties of any kind, either expressed or implied. You assume all responsibility and risk with respect to your use of the Available Information and purchase of any amount of the Tokens and their use. If applicable law does not allow all or any part of the above limitation of liability to apply to you, the limitations will apply to you only to the maximum extent permitted by applicable law. To the maximum extent permitted by applicable law, you hereby irrevocably and unconditionally waive: (i) all and any claims (whether actual or contingent and whether as an employee, office holder, trustee or in any other capacity whatsoever or howsoever arising) including, without limitation, claims for or relating to the Excluded Liability Matters, any payment or repayment of monies, indemnity or otherwise that you may have against FasttokenAsia or against any of FasttokenAsia Representatives; and (ii) release and discharge FasttokenAsia and all of FasttokenAsia Representatives from any and all liability (of whatsoever nature or howsoever arising) you may have against any of them. If for any reason you hereafter bring or commence any action or legal proceeding in respect of any claim purported to be released and discharged pursuant to this paragraph or these Terms, or otherwise attempt to pursue any such claim against FasttokenAsia or any Company Representative then you hereby irrevocably and unconditionally undertake to indemnify, and keep indemnified FasttokenAsia and all Company Representatives fully on demand from and against:

(a) All liabilities or losses suffered by FasttokenAsia or any Company Representative; and
(b) All costs, charges and expenses (including without limitation reasonable legal costs and expenses) reasonably and properly incurred by FasttokenAsia or any Company Representative, in each case by reason of or in connection with the bringing or commencement of such action or pursuit of such claim by you. If any provision or part-provision of this “Legal Considerations, Risks and Disclaimer” schedule is or becomes invalid, illegal or unenforceable, it shall be deemed modified to the minimum extent necessary to make it valid, legal and enforceable. If such modification is not possible, the relevant provision or part-provision shall be deemed deleted. Any modification to or deletion of a provision or part-provision under this “Legal Considerations, Risks and Disclaimer” schedule shall not affect the validity and enforceability of the rest of this “Legal Considerations, Risks and Disclaimer” schedule.

5. No Representation & Warranties

FasttokenAsia and FasttokenAsia Representatives do not make or purport to make, and hereby disclaim, any representation, warranty or undertaking in any form whatsoever to any entity or person, including any representation, warranty or undertaking in relation to the truth, accuracy and completeness of any of the information set out in the Available Information.

6. Representation & Warranties by You

By howsoever accessing and/or accepting possession or communication of all or any part of the Available Information, you represent and warrant (and shall be deemed to represent and warrant) to FasttokenAsia on the date of such access or on the latest date on which retain possession of all or any part of the Available Information as follows:

- (a) You are over 18 (eighteen) years of age;
- (b) You agree and acknowledge that the Tokens are not designated as securities and do not constitute an investment of any form in any jurisdiction;
- (c) You agree and acknowledge that the Available Information (including the White Paper and the Website) does not constitute a prospectus or offer document of any sort and is not intended to constitute an offer of securities in any jurisdiction or a solicitation for investment in securities and you are not bound to enter into any contract or binding legal commitment and no cryptocurrency or other form of payment is to be accepted on the basis of the Available Information;
- (d) You agree and acknowledge that no regulatory authority has examined or approved the Available Information, no action has been or will be taken under the laws, regulatory requirements or rules of any jurisdiction and the publication, distribution or dissemination of all or any part of the Available Information to you does not imply that the applicable laws, regulatory requirements or rules have been complied with;
- (e) You agree and acknowledge that the Available Information, the undertaking and/or the completion of the Token Sale, or future trading of the Tokens on any exchange or market (regulated, unregulated, primary, secondary or otherwise), shall not be construed, interpreted or deemed by you as an indication of the merits of FasttokenAsia, the Tokens, the Token Sale or the Available Information;
- (f) The distribution or dissemination of the Available Information or any part thereof or any copy thereof, or acceptance of the same by you, is not prohibited or restricted by the applicable laws, regulations or rules in your jurisdiction, and where any restrictions in relation to possession are applicable, you have observed and complied with all such restrictions at your own expense and without liability to FasttokenAsia;
- (g) You agree and acknowledge that in the case where you wish to purchase any Tokens, the Tokens should not be construed, interpreted, classified or treated as:
- (i) Debentures, stocks or shares issued by any person or entity (whether FasttokenAsia or otherwise);

- (ii) Rights, options or derivatives in respect of such debentures, stocks or shares;
- (iii) Rights under a contract for differences or under any other contract the purpose or intended purpose of which is to secure a profit or avoid a loss;
- (iv) Units in a collective investment scheme;
- (v) Units in a business trust;
- (vi) Interest in a partnership;
- (vii) Interest in a fund, whether closed or open-ended;
- (viii) Derivatives of units in a business trust;
- (ix) Any other security or class of securities; or
- (x) Any type of investment or financial product which requires a separate license, permit, approval or authorization from any governmental or statutory body to which you are subject;
- (h) You are fully aware of and understand that you are not eligible to purchase any Tokens or access the Available Information if you are a citizen, national, resident (tax or otherwise) and/or green card holder of a Restricted Jurisdiction or if you are a Restricted Person;
- (i) You have a basic degree of understanding of the operation, functionality, usage, storage, transmission mechanisms and other material characteristics of cryptocurrencies, blockchain-based software systems, cryptocurrency wallets or other related token storage mechanisms, blockchain technology and smart contract technology;
- (j) You are fully aware and understand that in the case where you wish to purchase any Tokens, there are risks associated with: (A) FasttokenAsia and its business and operations; (B) the Tokens; (C) the Token Sale; and (D) relying or acting on all or any part of the Available Information;
- (k) You agree and acknowledge that FasttokenAsia is not liable for any indirect, special, incidental, consequential or other losses of any kind, in tort, contract or otherwise (including but not limited to loss of revenue, income or profits, or loss of savings, or loss of use or data, or loss of reputation, or loss of any economic or other opportunity of whatsoever nature or howsoever arising), arising out of or in connection with any acceptance of or reliance on the Available Information or any part thereof by you;

(l) All of the above representations and warranties are true, complete, accurate and not misleading from the time of your last access to and/or possession of (as the case may be) the Available Information.

7. Cautionary Note on Forward-Looking Statements

All statements contained in the Available Information, statements made in any press releases or in any place accessible by the public and oral statements that may be made by FasttokenAsia or FasttokenAsia Representatives (as the case may be), that are not statements of historical fact, constitute “forward looking statements”.

Some of these statements can be identified by forward-looking terms such as “aim”, “target”, “anticipate”, “believe”, “could”, “estimate”, “expect”, “if”, “intend”, “may”, “plan”, “possible”, “probable”, “project”, “should”, “would”, “will” or other similar terms. However, these terms are not the exclusive means of identifying forward-looking statements. All statements regarding FasttokenAsia’s financial position, business strategies, plans and prospects and the future prospects of the industry which FasttokenAsia is in are forward-looking statements.

These forward-looking statements, including but not limited to statements as to FasttokenAsia’s revenue profitability and growth, expected revenue profitability and growth, prospects, future plans, other expected industry trends and other matters discussed in the available Information regarding FasttokenAsia are matters that are not historical facts, but only estimations and predictions. FasttokenAsia makes no representation or warranty on having made any predictions or estimates or expectations on the basis of any formula, any mathematical or scientific modelling or forecast, or having made any due and proper enquiries or having undertaken any independent research or studies or otherwise.

These forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual future results, performance or achievements of FasttokenAsia to be materially different from any future results, performance or achievements expected, expressed or implied by such forward-looking statements. These factors include, amongst others:

- (a) Changes in political, social, economic and stock or cryptocurrency market conditions, and the regulatory environment in the countries in which FasttokenAsia conducts its business and operations;
- (b) The risk that FasttokenAsia may be unable to execute or implement its business strategies and future plans;

- (c) Changes in interest rates and exchange rates of fiat currencies and cryptocurrencies;
- (d) Changes in the anticipated growth strategies and expected internal growth of FasttokenAsia;
- (e) Changes in demand for FasttokenAsia's products and/or services;
- (f) Changes in the availability and salaries of employees who are required by FasttokenAsia to operate its business and operations;
- (g) Changes in preferences of customers of FasttokenAsia;
- (h) Changes in competitive conditions under which FasttokenAsia operates, and the ability of FasttokenAsia to compete under such conditions;
- (i) Changes in the future capital needs of FasttokenAsia and the availability of financing and capital to fund such needs;
- (j) Changes in applicable laws, regulations and/or regulatory framework governing the business as conducted by FasttokenAsia and/or its affiliates;
- (k) War or acts of international or domestic terrorism;
- (l) Occurrences of catastrophic events, natural disasters and acts of God that affect the businesses and/or operations of FasttokenAsia;
- (m) Other factors beyond the exclusive control of FasttokenAsia; and
- (n) Any risk and uncertainties associated with FasttokenAsia and its business and operations, the Tokens, the Token Sale and reliance on all or any part of the Available Information.

All forward-looking statements made by or attributable to FasttokenAsia or Company Representatives are expressly qualified in their entirety by such factors. Given that risks and uncertainties may cause the actual future results, performance or achievements of FasttokenAsia to be materially different from that expected, expressed or implied by the forward- looking statements in the Available Information, undue reliance must not be placed on these statements.

These forward-looking statements are applicable only as of the later of the date of publication of the White Paper and the latest date that the Website has been updated.

Neither FasttokenAsia nor FasttokenAsia Representatives nor any other person represents, warrants and/or undertakes that the actual future results, performance or achievements of FasttokenAsia will be as discussed in those forward-looking statements. The actual results, performance or achievements of FasttokenAsia may differ materially from those anticipated in these forward-looking statements.

Nothing contained in the Available Information is or may be relied upon as a promise, representation or undertaking as to the future performance or policies of FasttokenAsia. Further, FasttokenAsia disclaims any responsibility to update any of those forward-looking statements or publicly announce any revisions to those forward-looking statements to reflect future developments, events or circumstances, even if new information becomes available or other events occur in the future.

8. Risk Factors

You should carefully consider and evaluate each of the following risk factors and all other information contained in these Terms before deciding to participate in the Token Sale. To the best of FasttokenAsia's knowledge and belief, all risk factors which are material to you in making an informed judgment to participate in the Token Sale have been set out below.

If any of the following considerations, uncertainties or material risks develop into actual events, the business, financial position and/or results of operations of FasttokenAsia and the maintenance and level of usage of the Tokens could be materially and adversely affected. In such cases, the trading price of the Tokens (in the case where they are listed on an exchange or market (regulated, unregulated, primary, secondary or otherwise)) could decline due to any of these considerations, uncertainties or material risks, and you may lose all or part of your Tokens or the economic value thereof.

8.1. Risks Relating to Participation in the Token Sale

There is no prior market for the Tokens and the Token Sale may not result in an active or liquid market for the Tokens. Prior to the Token Sale, there has been no public market for the Tokens. Although FasttokenAsia may use reasonable endeavors to seek the approval of cryptocurrency exchange or market to make the Tokens available for trading on the relevant cryptocurrency exchange or market, there is no assurance that such approval will be obtained.

Furthermore, even if such approval is granted by a cryptocurrency exchange or market, there is no assurance that an active or liquid trading market for the Tokens will develop, or if developed, will sustain after the Tokens have been made available for trading on such exchange or market.

There is also no assurance that the market price of the Tokens will not decline below the original purchase price. The purchase price may not be indicative of the market price of the Tokens after they have been made available for trading on a market. A Token is not a currency issued by any central bank or national, supra-national or quasi-national organization, nor is it backed by any credit nor is it a commodity in the traditional sense of that word.

FasttokenAsia is not responsible for the circulation and trading of the Tokens on any market. Trading of Tokens will merely depend on the consensus on its value between the relevant market participants. No one is obliged to purchase any Token from any holder of the Token, including the purchasers, nor does anyone guarantee the liquidity or market price of Tokens to any extent at any time. s

Furthermore, the Tokens may not be resold to purchasers who are citizens, nationals, residents (tax or otherwise) and/or green card holders of Restricted Jurisdictions or to Restricted Persons or to purchasers in any other jurisdiction where the purchase of Tokens may be in violation of applicable laws. Accordingly, FasttokenAsia cannot ensure that there will be any demand or market for the Tokens, or that the purchase price is indicative of the market price of the Tokens after they have been made available for trading on any cryptocurrency exchange or market.

Future generation or issuance of the Tokens could materially and adversely affect the market price of the Tokens.

Any future sale or issuance of the Tokens would increase the supply of Tokens in the market and this may result in a downward price pressure on the Token. The sale or distribution of a significant number of Tokens outside of the Token Sale (including but not limited to the sales of the Tokens undertaken after the completion of the initial crowdsale, issuance of the Tokens to persons other than purchasers for purposes of community initiatives, business development, academic research, education and market expansion and issuance of the Tokens as a reward to users of FasttokenAsia's products, services or otherwise), or the perception that such further sales or issuance may occur, could adversely affect the trading price of the Tokens.

Negative publicity may materially and adversely affect the price of the Tokens.

Negative publicity involving FasttokenAsia, FasttokenAsia's business, the Tokens or any of the key personnel of FasttokenAsia and/or regulation of distributed ledger technologies, cryptocurrencies and/or generation of tokens in any jurisdiction, may materially and adversely affect the market perception or market price of the Tokens, whether or not it is justified.

There is no assurance of any success of FasttokenAsia's business proposal or any future Token functionality.

The utility of the Tokens hinges heavily on the implementation of FasttokenAsia's business proposal and the continuous active engagement of its users and success of FasttokenAsia's contemplated business lines. There is no assurance that Fasttoken's business proposal will gain or continue to gain traction. Furthermore, there is no assurance that any future functionality of the Tokens ("Token Functionality") will be realised.

While FasttokenAsia has made every effort to provide a realistic estimate, there is also no assurance that the cryptocurrencies raised in the Token Sale will be sufficient for the development and implementation of FasttokenAsia's business proposal and/or for the proper development, structuring and licensing of the anticipated future Token Functionality.

For the foregoing or any other reason, the development and implementation of FasttokenAsia's business proposal and the launch of the anticipated Token Functionality may not be completed and there is no assurance that it will be launched at all. As such, the Tokens that have been distributed may have small or no utility, and may have little worth or value and this would impact its use and liquidity.

The trading price of the Tokens may fluctuate following the Token Sale.

The utility or prices of cryptographic tokens in general tend to be relatively volatile, and can fluctuate significantly over short periods of time. The demand for, and the corresponding utility or market price of, the Tokens may fluctuate significantly and rapidly in response to, among others, the following factors, some of which are beyond the control of FasttokenAsia:

- (a) New technical innovations;
- (b) Analysts' speculations, recommendations, perceptions or estimates of the Token's utility or FasttokenAsia's financial and business performance;
- (c) Changes in market valuations and token prices of entities with businesses similar to that of FasttokenAsia that may be listed on the same cryptocurrency exchanges or markets as the Tokens;
- (d) Announcements by FasttokenAsia of significant events, for example partnerships, sponsorships or new product developments;

- (e) Fluctuations in market prices and trading volume of cryptocurrencies on cryptocurrency exchanges or markets;
- (f) Additions or departures of key personnel of FasttokenAsia;
- (g) Success or failure of FasttokenAsia's management in implementing business and growth strategies;
- (h) Changes in applicable laws, regulations and/or regulatory framework governing the business as conducted by FasttokenAsia and/or its affiliates; and/or
- (i) Changes in conditions affecting the blockchain or financial technology industry, the general economic conditions or market sentiments, or other events or factors.

The funds raised in the Token Sale are exposed to risks of theft.

FasttokenAsia will make every effort to ensure that the funds received from the Token Sale will be securely held in an escrow wallet, which is a multi-signature address with access thereto by private keys held by multiple trusted parties. Further, FasttokenAsia may make every effort to ensure that the funds received by it from Token Sale will be securely held through the implementation of security measures.

Notwithstanding such security measures, there is no assurance that there will be no theft of the cryptocurrencies as a result of hacks, sophisticated cyber-attacks, distributed denials of service or errors, vulnerabilities or defects on the Token Sale website, in the smart contract(s) on which the escrow wallet and the Token Sale relies, on the Ethereum blockchain or any other blockchain, or otherwise. Such events may include, for example, flaws in programming or source code leading to exploitation or abuse thereof.

In such event, even if the Token Sale is completed, FasttokenAsia may not be able to receive the cryptocurrencies raised and FasttokenAsia may not be able to use such funds for the development and implementation of FasttokenAsia's business proposal and/or for launching any future Token Functionality.

In such case, the launch of FasttokenAsia's business proposal and the structuring and licensing of any future Token Functionality might be temporarily or permanently curtailed. As such, the Tokens distributed may hold little worth or value and this would impact their trading price.

8.2. Risks Relating to the Escrow Wallet

The private keys to the escrow wallet may be compromised and the cryptocurrencies may not be able to be disbursed. The escrow wallet is designed to be secure. However, any one or more keys to the escrow wallet may, for any reason whatsoever, be lost, destroyed or otherwise compromised, and the funds held by the escrow wallet may not be able to be retrieved and disbursed, and may be permanently unrecoverable.

In such event, even if the Token Sale is successful, FasttokenAsia will not be able to receive the funds raised and FasttokenAsia will not be able to use such funds for the development and implementation of FasttokenAsia's business proposal or the development of any future Token Functionality. As such, distributed Tokens may hold little worth or value and this would impact their trading price.

8.3. Risks Relating to FasttokenAsia

FasttokenAsia's business.

Any events or circumstances which adversely affect FasttokenAsia or any of its successors or affiliated operating entities may have a corresponding adverse effect on FasttokenAsia's business and/or on any future Token Functionality, including but not limited to the development, structuring and launch of FasttokenAsia's business proposal and of any future Token Functionality. Such adverse effects would correspondingly have an impact on the utility, liquidity supply and demand of the Tokens.

FasttokenAsia may be materially and adversely affected if it fails to effectively manage its operations as its business develops and evolves, which would have a direct impact on its ability to maintain or operate FasttokenAsia's business and/or develop, structure and/or license any future Token Functionality. The financial technology and cryptocurrency industries in which FasttokenAsia competes have grown rapidly over the past few years and continue to evolve in response to new technological advances, changing business models, shifting regulations and other factors.

As a result of this constantly changing environment, FasttokenAsia may face operational difficulties in adjusting to the changes, and the sustainability of FasttokenAsia will depend on its ability to manage its operations, ensure that it hires qualified and competent employees, and provides proper training for its personnel. As its business evolves, FasttokenAsia must also expand and adapt its operational infrastructure.

FasttokenAsia's business will in part rely on its blockchain-based software systems, cryptocurrency wallets or other related token storage mechanisms, blockchain technology and smart contract technology. All of these systems, tools, and skillsets represent complex, costly, and rapidly changing technical infrastructure. In order to demonstrate continued ability to effectively manage technical support infrastructure for FasttokenAsia's business, FasttokenAsia will need to continue to upgrade and improve its data systems and other operational systems, procedures, and controls.

These upgrades and improvements will require a dedication of resources and are likely to be complex and increasingly rely on hosted computer services from third parties that FasttokenAsia does not or will not control. If FasttokenAsia is unable to adapt its systems and organization in a timely, efficient, and cost-effective manner to accommodate changing circumstances, its business, financial condition and/ or operations may be adversely affected. If the third parties whom FasttokenAsia relies on are subject to a security breach or otherwise suffer disruptions that impact the services FasttokenAsia uses, the integrity and availability of its internal information could be compromised, which may consequently cause the loss of confidential or proprietary information and/or economic loss.

The loss of financial, labour or other resources, and any other adverse effect on FasttokenAsia's business, financial condition and/or operations, would have a direct adverse effect on FasttokenAsia's ability to maintain or operate FasttokenAsia's business and/or to develop, structure and/or license the anticipated future Token Functionality. Any adverse effects affecting FasttokenAsia's business or technology are likely to also adversely impact the utility, liquidity, and trading price of the Tokens.

FasttokenAsia may experience system failures, unplanned interruptions in its network or services, hardware or software defects, security breaches or other causes that could adversely affect FasttokenAsia's infrastructure network, and/or FasttokenAsia's business.

FasttokenAsia is not able to anticipate when there would be occurrences of hacks, cyber-attacks, distributed denials of service or errors, vulnerabilities or defects in FasttokenAsia's business, in the smart contracts on which FasttokenAsia or FasttokenAsia's business relies, or on the Ethereum or any other blockchain.

Such events may include, for example, flaws in programming or source code leading to exploitation or abuse thereof. FasttokenAsia may not be able to detect such hacks, cyber-attacks, distributed denials of service errors vulnerabilities or defects in a timely manner, and may not have sufficient resources to efficiently cope with multiple service incidents happening simultaneously or in rapid succession.

FasttokenAsia's network or services, which include FasttokenAsia's business, if successfully structured, developed, licensed or, launched and the future Token Functionality, could be disrupted by numerous events, including natural disasters, equipment breakdown, network connectivity downtime, power losses, or even intentional disruptions of its services, such as disruptions caused by software viruses or attacks by unauthorised users, some of which are beyond Fasttoken's control. There can be no assurance that cyber-attacks, such as distributed denials of service, will not be attempted in the future or that FasttokenAsia's security measures will be effective.

FasttokenAsia may be prone to attacks on its infrastructure intended to steal information about its technology, financial data or user information or take other actions that would be damaging to FasttokenAsia and/or holders of the Tokens. Any significant breach of FasttokenAsia's security measures or other disruptions resulting in a compromise of the usability, stability, and security of FasttokenAsia's network or system may adversely affect the utility, liquidity and/or trading price of the Tokens.

FasttokenAsia may in the future be dependent in part on the location and data center facilities of third parties.

FasttokenAsia's future infrastructure network may be established in whole or in part through servers which it owns and/or houses at the location facilities of third parties, and/ or servers that it rents at data center facilities of third parties.

If FasttokenAsia is unable to renew its data facility leases on commercially reasonable terms or at all, FasttokenAsia may be required to transfer its servers to a new data center facility, and may incur significant costs and possible service interruption in connection with the relocation.

These facilities are also vulnerable to damage or interruption from, among others, natural disasters, arson, terrorist attacks, power losses, and telecommunication failures.

Additionally, the third-party providers of such facilities may suffer a breach of security as a result of third-party action, employee error, malfeasance or otherwise, and a third party may obtain unauthorised access to the data in such servers. FasttokenAsia and the providers of such facilities may be unable to anticipate these techniques or to implement adequate preventive measures.

General global market and economic conditions may have an adverse impact on FasttokenAsia's operating performance, results of operations and/or cash flows.

FasttokenAsia could continue to be affected by general global economic and market conditions. Challenging economic conditions worldwide have from time to time, contributed, and may continue to contribute, to slowdowns in the information technology industry at large.

Weakness in the economy could have a negative effect on FasttokenAsia's business, operations and financial condition.

Additionally, in a down-cycle economic environment, FasttokenAsia may experience the negative effects of a slowdown in usage of the Token and may delay or cancel the development, structuring, licensing and/or launch of the anticipated Token Functionality. Suppliers on which Fasttoken relies for servers, bandwidth, location and other services could also be negatively impacted by economic conditions that, in turn, could have a negative impact on FasttokenAsia's operations or expenses.

There can be no assurance, therefore, that current economic conditions or worsening economic conditions or a prolonged or recurring recession will not have a significant, adverse impact on FasttokenAsia's business, the Token, financial condition and results of operations, and hence, the ability to develop, structure, license and/or launch any future Token Functionality. Any such circumstances would then correspondingly negatively impact the utility, liquidity, and/or trading price of the Tokens.

FasttokenAsia or the Tokens may be affected by newly implemented regulations.

Distributed ledger technologies, businesses and activities as well as cryptocurrencies and cryptocurrency-related businesses and activities are generally unregulated worldwide, but numerous regulatory authorities across jurisdictions have been outspoken about considering the implementation of regulatory regimes which govern distributed ledger technologies, businesses and activities as well as cryptocurrencies and cryptocurrency-related businesses and activities.

FasttokenAsia or the Tokens may be affected by newly implemented regulations relating to distributed ledger technologies, businesses and activities as well as cryptocurrencies and cryptocurrency-related businesses and activities, including having to take measures to comply with such regulations, or having to deal with queries, notices, requests or enforcement actions by regulatory authorities, which may come at a substantial cost and may also require substantial modifications to FasttokenAsia's business, and/or the anticipated Token Functionality.

This may impact the appeal or practicality or functionality of FasttokenAsia's business and/or the anticipated Token Functionality for users and result in decreased usage of and demand for FasttokenAsia's business and the Tokens. Further, should the costs (financial or otherwise) of complying with such newly implemented regulations exceed a certain threshold, maintaining FasttokenAsia's business, and/or developing, structuring, licensing and/ or launching the future Token Functionality may no longer be commercially viable, and FasttokenAsia may opt to

discontinue FasttokenAsia's business, the anticipated future Token Functionality, and/or the Tokens.

Further, it is difficult to predict how or whether governments or regulatory authorities may implement any changes to laws and regulations affecting distributed ledger technology and its applications, including FasttokenAsia's business, the anticipated future Token Functionality, and/or the Tokens.

FasttokenAsia may also have to cease operations in a jurisdiction that makes it illegal to operate in such jurisdiction, or make it commercially unviable or undesirable to obtain the necessary regulatory approval(s) to operate in such jurisdiction. In scenarios such as the foregoing, the utility, liquidity, and/or trading price of Tokens will be adversely affected and/or Tokens may cease to be traded.

Risk of dissolution of FasttokenAsia.

It is possible that, due to any number of reasons, including but not limited to, an unfavorable fluctuation in the value of cryptographic and fiat currencies and a decrease in the Token's utility due to negative adoption of FasttokenAsia's services, which FasttokenAsia may dissolve.

The Tokens may be affected by FasttokenAsia's decisions.

Because Tokens confer no governance rights of any kind with respect to FasttokenAsia, all decisions involving FasttokenAsia will be made by Company at its sole and absolute discretion, including but not limited to, decisions to discontinue FasttokenAsia's business, or to sell or liquidate FasttokenAsia. These decisions could adversely affect FasttokenAsia's business and the Tokens.

There may be unanticipated risks arising from the Tokens.

Cryptographic tokens such as the Tokens are a relatively new and dynamic technology. In addition to the risks included in the above discussion of risk factors, there are other risks associated with your purchase, holding, and use of the Tokens, including those that FasttokenAsia cannot anticipate. Such risks may further appear as unanticipated variations or combinations of the risks discussed above.

9. Privacy Policy

By purchasing the Tokens, you agree to your personal data, (i.e., your e-mail address, name, address and other details personal to you) being processed by FasttokenAsia for its business purposes or the purposes of building, promoting, and communicating FasttokenAsia's business and the Tokens. FasttokenAsia agrees to keep your email address

and other personal data private and not share it with the public (e.g., by including it on any external lists or selling to any third parties).

10. Disclaimer

The presentation of the Available Information is solely for informational purposes. Anyone interested in purchasing the Tokens and participating in the Token Sale should consider the various risks prior to making any kind of decision in respect of the Token Sale. The Available Information does not comprise any advice by FasttokenAsia or by FasttokenAsia Representatives, or any recommendation to any recipient to participate in the Token Sale or otherwise.

The Available Information does not necessarily identify, or claim to identify, all the risk factors connected with FasttokenAsia, FasttokenAsia's business, the Tokens, the Token Sale or any future Token Functionality. All the participants must make their own independent evaluation of whether to participate in the Token Sale, after making such investigations as they consider essential, of the merits of participating in the Token Sale and after taking their own independent professional advice.

Any participant in the Token Sale should check with and rely upon their own investment, accounting, legal and tax representatives and consultants in respect of such matters concerning FasttokenAsia, FasttokenAsia's business, the Tokens, the Token Sale, any future Token Functionality and the Available Information and to assess separately the financial risks, consequences and appropriateness for the purchase of the Tokens, or if in any doubt about the facts set out in the Available Information.

Subscription for the Tokens comprises considerable risk and might involve extraordinary risks that may lead to a loss of all or a significant portion of monies or monetary value utilised to acquire the Tokens. Participants in the Token Sale are urged to completely understand, be aware of and accept the characteristics of FasttokenAsia, FasttokenAsia's business, the Tokens, the Token Sale, any future Token Functionality and the Available Information. If you are not prepared to accept any or all of these Terms or the risks set out in these Terms then you are urged not to participate in the Token Sale.

No guarantee or assurance is given by FasttokenAsia or by FasttokenAsia Representatives that FasttokenAsia's proposals, objectives and/or outcomes set out in the Available Information will be achieved in whole or in part. You are urged to consider whether participation in the Token Sale is suitable for you having regard to your personal and financial circumstances and your financial resources.

11 Restrictions on Distribution and Dissemination of the Available Information

The distribution or dissemination howsoever of all or any part of the Available Information may be prohibited or restricted by the laws, regulatory requirements and rules of certain jurisdictions. In the case where any such restriction applies, you are responsible for informing yourself in respect of the same and for observing any such restrictions which are applicable to your possession and/or dissemination of all or any part of the Available Information at your own expense and without liability to FasttokenAsia.

Persons to whom a copy of all or any part of the Available Information has been distributed or disseminated, provided access to or who otherwise have all or any part of the Available Information in their possession shall not circulate it to any other persons, reproduce or otherwise distribute any information contained herein for any purpose whatsoever nor permit or cause the same to occur.

12 No Offer of Securities or Registration

This White Paper does not constitute a prospectus or offer document of any sort and is not intended to constitute an offer of securities or a solicitation for investment in securities in any jurisdiction. No person is bound to enter into any contract or binding legal commitment and no cryptocurrency or other form of payment is to be accepted on the basis of all or any part of the Available Information.

Any agreement in relation to any purchase of the Tokens is to be governed by the terms and conditions of a separate agreement and no other document. In the event of any inconsistencies between the terms and conditions of that agreement and the Available Information, those terms and conditions shall prevail. You are not eligible to purchase any Tokens in the Token Sale if you are a citizen, resident (tax or otherwise) or green card holder of a Restricted Jurisdiction or you are a Restricted Person.

No regulatory authority has examined or approved of any of the Available Information. No such action has been or will be taken under the laws, regulatory requirements or rules of any jurisdiction. The publication, distribution or dissemination of the Available Information does not imply that the applicable laws, regulatory requirements or rules have been complied with.
