Abet offers over 10,000 different games including slot games, esports, virtual sports and other mini games, along with over 2,000 Live casino games which are all registered and licensed under Euro Gambling Authority to be monitored.

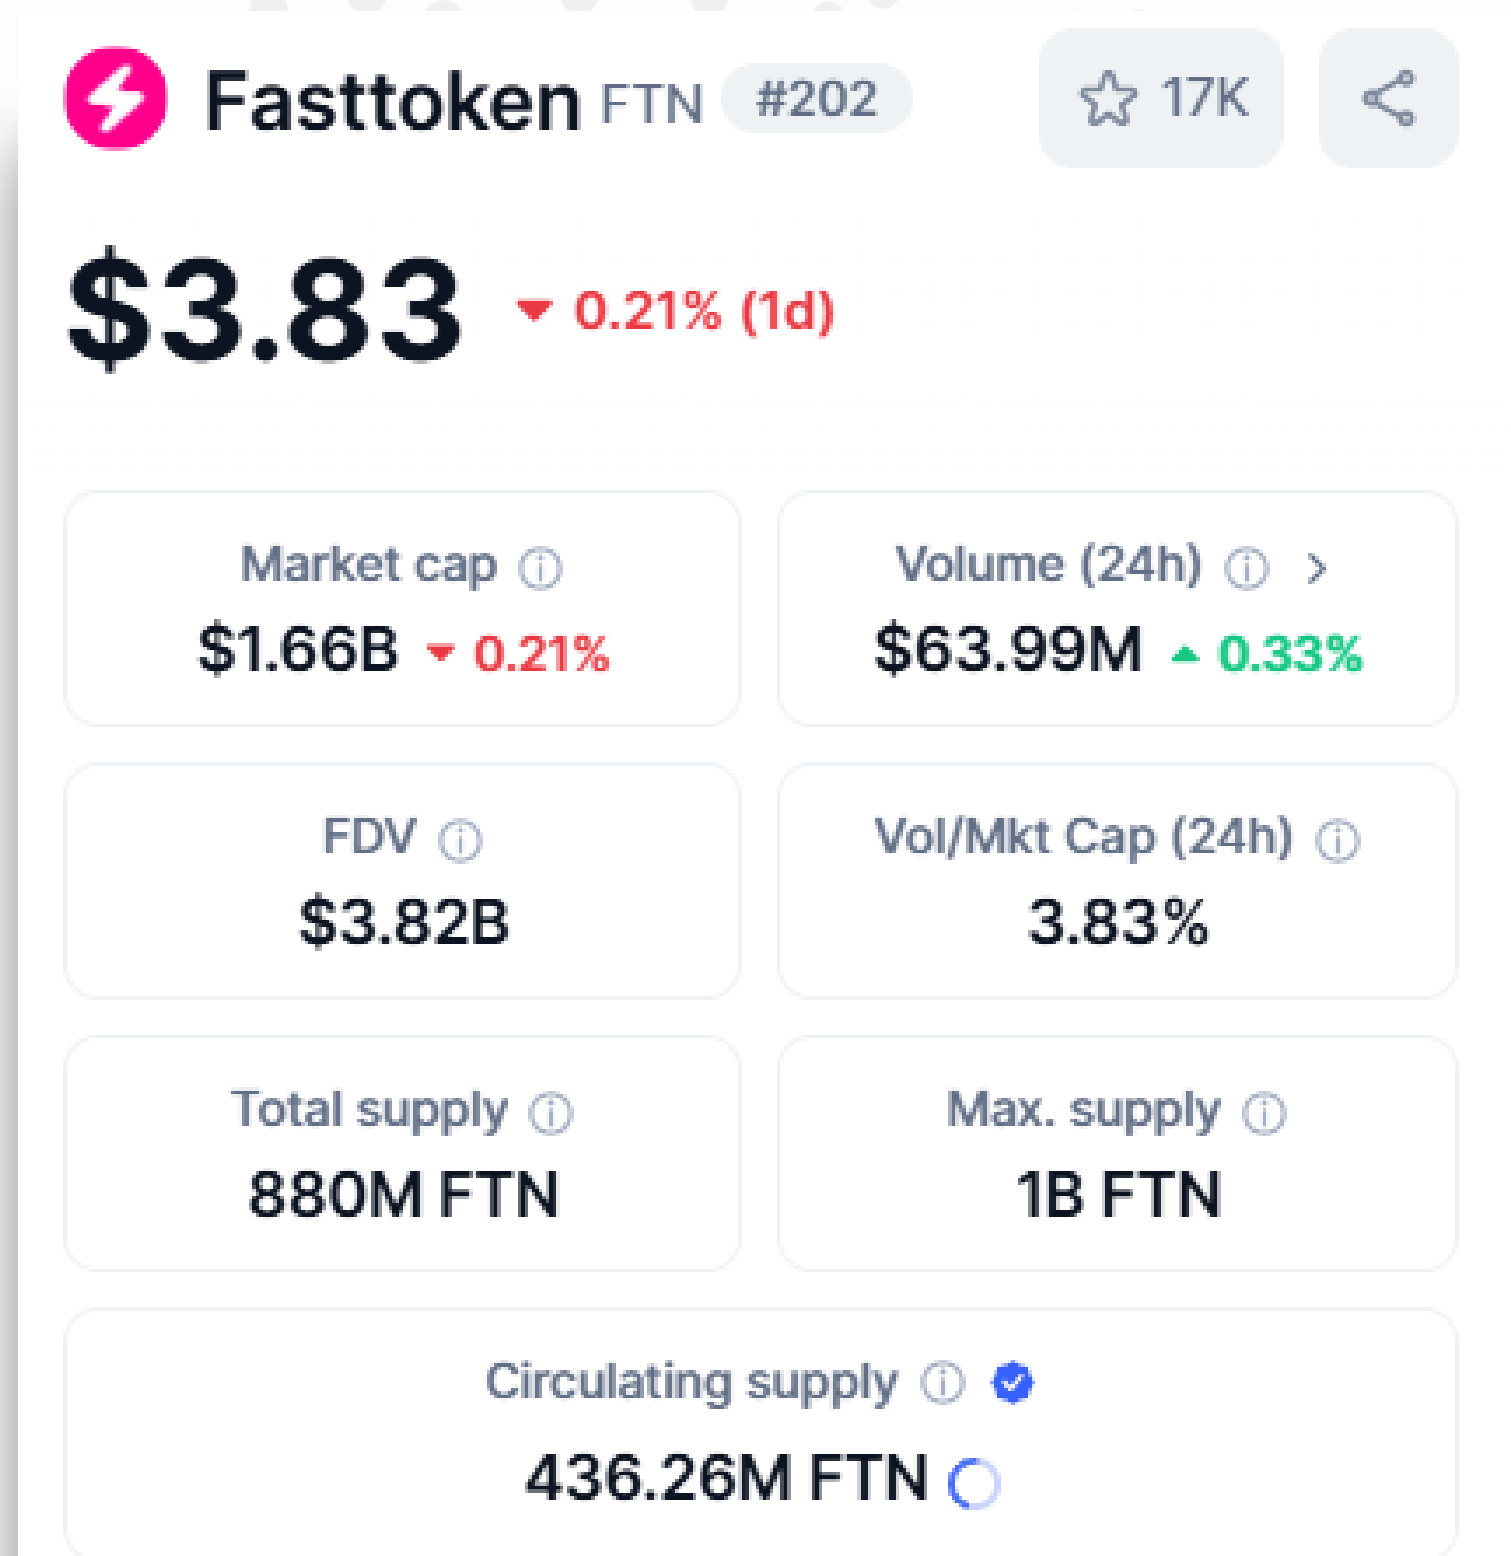

Abet wallet provides user interface which supports FasttokenAsia (FTNA) withdrawal, deposit and swap. Also, you can swap FTNA staking rewards and betting bonus rewards into FTNA for withdrawal.

Fast token

Fasttoken(FTN) is the main cryptocurrency for BetConstruct's iGaming solutions. It is used among all platforms under BetConstruct and it's iGaming users for withdrawal and deposit.

Using FTN, users can easily use BetConstruct platform games without boarder. Also, FTN provides promotion events which gives users bonus credits to play games.

Fasttoken (FTN) is to be used in all Europe, North America, South America, and South Africa regions.

Fast token ⚡ Asia

Fasttokenasia (FTNA) is Asia regional token, which limits its usage in Asia regions. By year 2024, FTN reached its circulating capacity limit in their main European region, and therefore, FTNA is more likely to grow faster in Asia.

Fasttokenasia (FTNA) will be open for trading on Swap Exchanges and Asia-based crypto exchanges and will only be sold through those exchanges when sale period ends.

FTNA is currently sold only on abet.asia, and during the pre-sale, token will be distributed to personal digital wallets.

Price, presale

1 NFT = 10,000 USD

Abet NFT has maximum supply of 1,000 NFT and total of 1,000 NFT shares 15% of GGR(Gross Gaming Revenue) from Abet platform every month. NFT holders will each be provided with Abet's Backoffice account which will show real-time revenue of the platform, and receive their shares. (Calculation of GGR : 15% of Total GGR, $GGR = \text{total betting amount} - \text{total win}$)

Ex) When Abet's January GGR is 20,000,000 USD -> 3,000,000 USD shares goes to 1,000 Abet NFT, 1 NFT holder receives 3,000 USD
